<b>Planned external evaluation</b>	Q4 2024

<sup>1</sup> Formerly Mtwara Society Against Poverty

**Brief project description**

As part of SWISSAID Tanzania Country Programme 2019-2024, Programme Outcome 3, this project aims to improve the livelihood and leadership of rural women. It will be implemented in the regions of Mtwara and Lindi where Programme Outcome 1 projects are predominantly implemented, and in Geita where Programme Outcome 2 projects are predominantly implemented. In Lindi and Mtwara the project targets smallholder women farmers engaged in agriculture, agro-forestry, livestock keeping and fish farming as part of the Ecological Organic Agriculture (EOA) sector, whereas in Geita the project targets artisanal and small-scale women miners (ASM), in particular gold producers. Some advocacy activities will have a regional or national scope. Within a 5 years period (2020-2024), the project aims to reach a total of 2'335 direct beneficiaries, and about 12'550 indirect beneficiaries. Given that the project focuses on gender equity and equality, and not on women empowerment alone, a limited number of men are also included in the project.

The project is structured around 3 Outcomes and 12 Core Activities (4 Core Activities under each Outcome).

**Outcome 1:** Women have a secured (in the sense of long term and effective) access to new or improved economic resources thanks to the project.

- **Core Activity 1.1:** *Technical support to women-led groups in the EOA sector*
- **Core Activity 1.2:** *Technical support to women-led groups in the ASM sector*
- **Core Activity 1.3:** *Small grants to women-led groups in the EOA sector*
- **Core Activity 1.4:** *Small grants to women-led groups in the ASM sector*

**Outcome 2:** Women have accessed a leadership position in their collectivities

- **Core Activity 2.1:** *Sensitization and awareness creation on women leadership in the EOA sector*
- **Core Activity 2.2:** *Sensitization and awareness creation on women leadership in the ASM sector*
- **Core Activity 2.3:** *Support a core group of women leaders in the EOA sector*
- **Core Activity 2.4:** *Support a core group of women leaders in the ASM sector*

**Outcome 3:** Enhanced gender dialogue between project stakeholders and wider gender initiatives.

- **Core Activity 3.1:** *Enhancing in-house gender capacities*
- **Core Activity 3.2:** *Support to local gender initiatives in the EOA sector*
- **Core Activity 3.3:** *Support to local gender initiatives in the ASM sector*
- **Core Activity 3.4:** *Contribution to national gender initiatives*

This project will be implemented in collaboration with the following partners. In the small-scale farming sector, Door of Hope to Women and Youth Tanzania (DHWYT), and Might Society Against Poverty (MSOAPO). In the extractives sector, Foundation for ASM Development (FADEV) and Hakirasilimali. An external gender specialist will provide technical backstopping.

**Project classification: Women's projects**

**Code SDC sector: 42**

**Approved by PAC Switzerland: 19 December 2019<sup>2</sup>**

<sup>2</sup> Approval date of final budget and revised proposal: 18 March 2020
